in this 5th edition of the concise and clearly written best selling title all the chapters have been thoroughly updated and expanded particularly the sections on the retinal macular phacoemulsification lasik new equipment and ophthalmic drugs the book is generously illustrated with more than 200 colour pictures and is an excellent volume for medical students general practitioners ophthalmic students and all paramedical personnel who have to deal with common eye diseases

the broadview book of common errors in english offers full coverage of such common mistakes as commas splices sentence fragments words frequently confused words frequently misspelled mixed metaphors and subject verb agreement errors in each case the problem is clearly explained with examples illustrating both the nature of the trouble and how to put it right unlike many guides to grammar and usage the broadview book refrains from dogmatism it treats correctness in english not as an unchanging objective standard laden with moral overtones but rather as a code of convenience that is extraordinarily useful in helping humans to communicate effectively and even elegantly it thus retains an openness to the inevitable process of change in the english language and recognizes that change does not imply debasement the fifth edition has been updated throughout and includes new material on capitalization on the connections between clear writing and clear arguments on academic citation systems on business writing and on particular difficulties experienced by those whose first language is not english
